

MAKE A MASK, GIVE A MASK

Thank you for your interest in making homemade masks.

Recent updates have shown that they can help make a difference in our community's health.

- **Mail your homemade masks to the church to serve local outreach.**

Your masks go towards supporting Food Bank and Community Meal volunteers, those experiencing homelessness, our senior care, and others in need. Please mail your masks to:

Bethany Community Church
C/o Care Ministry
8023 Greenlake Dr N
Seattle, WA 98103

- **Ensure medical-grade personal protective equipment (PPE) remains available for those on the front lines.**

If you still have unused manufactured masks at home, consider donating them to your local hospitals and switching to a homemade mask. Donation sites can found at:

- [UW Medical Center/Harborview](#)
- [Evergreen Health Foundation](#)
- [Seattle Children's Guild Association](#)

- **In need of a homemade mask yourself?**

Email staff@churchbcc.org and we'll help connect you to one!
